

Dempffen, How the High Cut Suppresses

This class will go over the Vertical strikes from Meyer's Art of Combat and applications to it. While originally found in the Rappier section, we find this concept/technique in the sections after it. With this in mind we will apply it to the longsword and how his targeting system shows you how to apply it. Also, where we can potentially find it in the earlier KdF sources and how this can add a new view on fencing and the angles of which we strike.

Gear required: feder/blunt mask and gloves.

Optional: jacket

Instructor Bio

Josh Furrate is a beloved figure in HEMA and one of the most prolific fencers of our age. Josh is head instructor out of Ordo Procinctus HEMA in Baton Rouge Louisiana and a key member in the Southern Historic Fencing League.
